

Foodservice Disposables

the following standards may be applicable to the Foodservice Disposables category

EPA Comprehensive Procurement Guidelines (CPG)
Biodegradable Products Institute (BPI)
Cedar Grove Composting

US Department of Agriculture BioPreferred Program
EPA Environmentally Preferable Purchasing (EPP)

Product attributes for consideration:

- Recycled content, products made from pre- and post-consumer recovered/recycled content, which help to reduce waste
- Bio-based ingredients made from renewable resources
- Biodegradable when properly discarded
- Compostable when properly discarded in a commercially run compost facility
- Recyclable which reduces solid waste disposal and reduces the need to extract raw materials to create new products

The majority of Americans support sustainable products like compostable cups, plates and food containers. When consumers encounter these products in places like restaurants, they tend to give the establishment high marks.

Eco Products®

A. World Art Renewable Resource Compostable Hot Cups

World Art Hot Cups are the industry's green cup of choice. Lined with a PLA biopolymer these paper cups are made from 100% annually renewable materials. Certified compostable by BPI. Ideal for zero-waste events.
