

Odor Control

the following standards may be applicable to the Odor Control category

EPA Environmentally Preferable Purchasing (EPP) EcoLogo (Environmental Choice)
 EPA Design for the Environment (DfE)

Product attributes for consideration:

- Presence of ozone depleters should be minimized
- Low percentage of VOCs which are known to contribute to smog formation
- Non-flammable products are preferred
- Favor biodegradability upon disposal
- Minimize acute and chronic toxicity

Cleaning products such as air fresheners release pollutants into the air and can be a cause of indoor air quality issues. One way to improve indoor air quality is source control. This can be the most cost efficient approach to protecting indoor air quality.

Big D®

A. Water-Soluble Deodorant

Concentrated. Small amount added to water or other cleaning products destroys odors on contact without changing cleaner property. For mopping, shampooing, rinsing or use in hand sprayer or fogger. Nontoxic and nonflammable; will not stain any material unaffected by plain water. Biodegradable, recyclable container, product container and ship carton contain recycled content.

C. Bio Conqueror 105 Enzymatic Odor Counteractant Concentrate

Water-soluble concentrated formula contains high levels of fragrance, surfactant and bacteria for 24-hour odor control. Billions of select spore-form bacteria completely eliminate odors at their source by digesting odor-causing molecules. Can be used in trigger sprayers, mop water, carpet extractors and drains. VOC Compliant. Biodegradable materials. Free from phenol ethoxylate surfactants and carcinogens. Free from chlorinated, butyl and harsh solvents. Free from ammonia, bleach compounds, phosphates or silicates. Free from phthalates and alkylphenol ethoxylates. Recyclable packaging (plastic and boxes). Non-hazardous for shipment. Mango fragrance. Gallon bottle. 4 bottles per case.

Arm & Hammer®

E. Trash Can & Dumpster Deodorizer

Combination of baking soda and an odor-fighting fragrance quickly destroys tough odors on contact. Sprinkle directly on garbage each time more is added. Ideal for use in trash cans, dumpsters, drains/grease traps and diaper pails. Made with 100% pure baking soda. No harmful chemicals or dust. Packaging contains recycled content. 42.6-oz. box. 9 boxes per case.

CDC 84116	Case

F. Carpet & Room Allergen Reducer & Odor Eliminator

Unique powdered formula eliminates odors at the source and reduces the level of allergens in carpeting. Goes deep down into carpets to eliminate odors while the allergen reducer breaks the static charge that binds allergens to carpet fibers; allergens are released and easily vacuumed up. Made with 100% pure baking soda. No harmful chemicals or dust. Packaging contains recycled content. Lightly scented. 42.6-oz. shaker box. 9 boxes per case.

Water is a precious resource. In many parts of the world, including large parts of North America, it is also scarce and expensive. Improving conservation and good landscaping methods can reduce your reliance on water. Switching to ultra low-flush toilets, using flow-restrictive devices on sink taps, low-flow showerheads and other water conserving fixtures can help. If you are watering your landscaping, use micro-irrigation to supply water in non-turf areas and upgrade to state-of-the-art irrigation controllers and self-closing nozzles on hoses.
